

53 rue Vercingetorix
Paris May 10, 1966

Dear Richard:

Really delighted that you have the pictures and that all is wonderful with you and work. The paintings cost me total for sending 261,53 francs. However I trust you and your friends and hope to have information of your activity in your new position in Atlanta. Will write you when there is more time about some friends who were in Dakar and who told me after seeing your Portrait that they saw you at a party in the U.S. Embassy and were very taken with your smile, of course I was delighted. I work very hard and Paris is full of people coming from Africa and the States while I enjoy it immensely I hope to go away for a week in the country where I trust it will be possible to rest some. When I have a bit of time for reflection it will be pleasure to tell you of a few projects which engage me at present. While I cannot move about very much am comforted from time to time with dear friends who come to Europe each year and give me the pleasure of their company and bring me up on affairs at home. Please give my sincerest regards to all our mutual friends and all sincerest hope for the fulfillment of your projects.

Love

Beauford
